Independent IT Decision Advisory

Structured guidance for operational businesses making critical IT and system decisions.

Request initial discussion   **How we work**

No selling
We do not sell software or hardware

No implementation
We do not implement or manage systems

Client decides
Final decisions are always made by the client

How we work

A structured, repeatable approach to clarifying complex IT decisions.

01   **Context & constraints**
Understanding your operational environment, requirements, and decision timeline

02   **Options A/B/C**
Presenting structured alternatives based on your specific situation

03   **Trade-offs documented**
Clear analysis of implications, risks, and operational impact for each option

04   **Decision summary delivered**
Structured documentation to support your final decision and next steps

Decision Areas
